

121st IOC SESSION & XIII OLYMPIC CONGRESS
COPENHAGEN 2009
DENMARK

Att.
Vikingbus A/S
Denmark

Letter of Recommendation

Dear Mads V. Olesen,

The Danish Organising Committee of the 121st IOC Session & XIII Olympic Congress is proud to forward this letter of recommendation for your company, Vikingbus A/S, the Danish Global Passenger Network operator, which provided the official transportation for all delegates attending the International Olympic Committee session in Copenhagen, October 2009.

After appointing Vikingbus A/S as our official transportation provider, the Organising Committee felt very well taken care of. The planning process included dedication of high quality equipment for the cities bidding for the 2016 Olympic Games, planning and timing mass transfers and shuttle routes to and from the convention centre, as well as large-scale VIP transportation organisation. All transportation had to be carried out under extensive security restrictions, leaving no room for error.

During the event, the transportation services requested changed dramatically as the number of desired shuttles and transports were increased. At this point, Vikingbus A/S showed an extraordinarily powerful ability to change speed in their operations, both in regards to allocating additional equipment and drivers, as well as gearing up their operational centre with dedicated traffic directors.

The Vikingbus A/S team has, during the whole process, showed obvious experience and industry knowledge through their service delivery. Their dedication to providing high class service and transportation made the whole project a complete success, despite the challenging terms and very high expectations for this service.

We wish to thank everyone at Vikingbus A/S for their efforts and absolute professionalism during the 121st IOC Session & XIII Olympic Congress, and for their part in making this a highly respected event throughout the Olympic family and among all Danish partners involved.

Kind regards,

Jens M. Henriksen
Congress Director
